CAREER OBJECTIVE

Motivated B.Tech Information Technology student with hands-on experience in Java, Spring Boot, and full-stack web development. Seeking a Software Development Engineering internship to apply problem-solving skills and contribute to real-world software solutions.

TECHNICAL SKILLS

Languages: Java, C++, Python (Basic), JavaScript, HTML5, CSS3, SQL

Frameworks & Databases: Spring Boot (Learning), MySQL, MongoDB

Tools: Git, GitHub, Postman, Docker (Basic), VS Code

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, API Integration

KEY PROJECTS

Secure Document Management System — [Project Link](#)

Tech Stack: Java, Spring Boot, MySQL, HTML/CSS

- Built a full-stack document management system from scratch to address a Smart India Hackathon (SIH) problem statement on digital document security.
- Implemented user authentication and role-based access control to restrict document access appropriately.
- Designed the backend using Java and Spring Boot with MySQL for structured document storage and retrieval.

Real-Time Currency Converter — [Project Link](#)

Tech Stack: HTML, CSS, JavaScript, API Integration

- Built a web-based currency converter that fetches real-time exchange rates via a third-party API.
- Implemented dynamic conversion logic with a responsive, user-friendly interface.

Additional Projects: Tic-Tac-Toe Game & Stone-Paper-Scissors Game (HTML, CSS, JavaScript) — browser-based games featuring game logic, win/score detection, and interactive UI.

EXPERIENCE

Java Full Stack Developer Intern — Startahb Technology Private Limited

2026

- Worked on backend development using Java and Spring Boot, building RESTful APIs connected to a MySQL database.
- Collaborated with a development team using Git/GitHub for version control.

MERN Stack Developer Intern — Pantech.ai

2025 – 2026

- Built web application features using MongoDB, Express.js, React, and Node.js as part of a MERN stack internship.
- Worked across both frontend and backend components under mentor guidance.

MERN Development Intern (15 Days) — Cybrom Technology Pvt. Ltd.

2025

- Completed an intensive training program covering core web development concepts across the MERN stack.
- Practiced building and debugging full-stack features through hands-on assignments.

EDUCATION

B.Tech in Information Technology — Oriental Institute of Science and Technology (OIST), affiliated with RGPV

Expected 2028

- CGPA: 7.33

CERTIFICATIONS

- TCS iON Career Edge – Young Professional
- IBM SkillsBuild – Effective Communication in the Workplace
- MERN Stack Internship Program Certificate – Cybrom Technology Pvt. Ltd.
- Gen AI Hackathon 2025 | AI Tools & ChatGPT Workshop by be10x | AI with Saksham Digital Technology

LEADERSHIP & ACTIVITIES

- Co-Founder, Velvet Dusk Perfume — led product strategy, branding, and digital marketing for a startup brand.
- Digital Marketing Intern (Indigo Squad Member), IIT Bombay's College Connect Program.
- Class Representative (CR) & National Service Scheme (NSS) Member.
- Event Coordinator — organized hackathons, fashion shows, and college events; experience in team coordination and event management.
- Candidate, Deloitte Digital Camp (2026).
